I had an unfortunate event happen in the loft last week. One of my birds drowned in the bath water. This is the second time this has happened. I lost a hen several years ago the same way. I have to give the birds their bath inside the loft because my fly pens are not completed yet. Even though I do this weekly they act like they have never had a bath in their life. They all pile in shoulder to shoulder and can't move. Sometimes one goes in on top of these other ones and ends up standing on a bird's head, pushing its head under the water. The poor bird can't even move to free its head and drowns. Usually I keep an eye on them and when they are that crowded I go into the loft and some of them go out of the bath giving more room for the others to finish. Last week I was preoccupied with other tasks and found the poor guy floating in the bath water when I went to remove the bath. This is just something for people in the same position to watch out for. Fortunately, neither one that I lost was a prize bird.

The second thing I wanted to share was about wormer. Moxidectin is a very effective wormer. I had been trying to get some for a long time and my supplier couldn't get it in for me. I think because it comes from Australia and they were having a hard time getting it in. I got checking horse wormers and found that Quest horse wormer made by Wyeth has moxidectin in it as the active ingredient. The Quest Plus also has praziquantel in it. This combination is a full spectrum wormer. Giulio had some moxidectin with praziquantel made for pigeons, so from its concentration and dose we calculated the proper dose using the Quest Plus. Quest is a gel and comes in a needleless syringe with a large mouth. The syringe plunger shaft is graduated in 100 kg markings with 25 kg sub marks. It has a collar on the shaft that you can screw out to the kg setting you want depending on the weight of the horse. For horses you would inject it directly into their mouth. The collar stops the plunger at the proper dose. For pigeons use a 50 kg dose per gallon of water. Since it is a gel I squirt it into a small jar of slightly warm water and shake it to dissolve the gel. Then I add it to the container I fill for the pigeons. A syringe will make 11.5 gallons of wormer solution. Leave the solution in with the pigeons for a day, the same as you would any other wormer. Depending on the cost of the wormer you use vs the cost of Quest Plus this method may be cheaper and is effective. ....Paul McRae

## Secretary's Report

By Charles Dwight

Where has this year gone? It seems like the show season has just started and it's already time to get ready for the National.

I want to thank Bob Bollinger for his help at the Louisville Young Bird Show. Before the medium faced crested judging was complete the results for the earlier completed varieties was compiled and posted on the AHA web site. Modern technology is amazing.

I also want to thank Harold Strawniak for keeping track of the young bird points for 2007 breeder of the year.

Band Sales are slow this year. If you want a certain series get your order in now. Some low series are still available. Bands will be mailed on Dec 26.

In this bulletin you will find a ballot to vote on the two proposed Standard changes. You can mail the ballot in or vote by email to [mrsd@wcnet.org](mailto:mrsd@wcnet.org) Be sure to put **AHA** in the subject line of your email. Otherwise Mrs. D. may not promptly check it. Please vote.

Mailing address is Charles Dwight  
1093 ST. RT. 101E  
Clyde, OH 43410

Hope to see everyone at the National.

District 14 – Victor Cline, Danny Garling

## District 7 Report

Greetings AHA members, I am Ray Kolinski. Your new District 7 Director. I want to take some time to introduce myself, tell you how I got into birds, and about my flock.

I got my start in fancy pigeons from a few people. Let me start with my late father, Mr. Kolinski Sr, and my mother, Helen. The both introduced me to Paul Wingard and then Paul Lyzbecki when I was just six years old. Both men were from Somerset Country, Pa. From there I got birds from George Petro and Joe Daven. Rollers, English Short Faced Tumblers and Genetic Birds. When I met Charlie Franks, he taught me about flying my pigeons. I showed and raised my flock until I was the age of 24, when my job started to take me out of town too much to care of my flock.

With my Landscaping Company I have full time work year round, but I soon started to miss having animals. I bought a barn and started a small petting zoo, Rays Animal Paradise. We have done many shows at local annual events, schools, and personal care homes. This made me miss having my little birds in my back yard.

At the end of 2007, I got my first pair of birds in 18 years. A pair of Grizzle Rollers from the late Leo (Butch) Sorka. When Butch passed away it was very unexpected, we were to meet that day to talk pigeons. I then bought some of his flock, mostly Mookees and Saddle Homers.

I got my Helmet start with Kevin Zollars, and then I came to know Harold Strawniak. Harold, who raises Helmets and Genetic Birds, has helped me out a lot with my flock. Because of him, I am very outspoken about all breeds of birds. I also have gotten birds from the following breeders: Victor Kline, Steve Combs, and Galen Goshorn. I want to thank Harold and all the other members that helped me get back into Helmets. I now raise crested in black, red, blue, dun and ribbon tailed. Plain Head in black and red. I have a few babies of my own, but I hope to have many more with the next breeding season coming soon.

I have more birds than I have time to mention, but I do belong to the following clubs. The Saddle Homers of America, The American Mookee Club, The National Italian Owl and Figurita Club, The United Swallow Club, The National Dove Association and my local Western Pennsylvania Pigeon Club.

As your new District 7 Director, I will try to promote and attend as many shows as possible. I have shown at White Rose, Eastern Hungarian, Reading, and the Western Pa Pigeon Clubs. I have shown at the Young Bird National and plan to attend the National. Upon approval from these and various other clubs, I will to acquire many meets.

Club member may contact me via e-mail, rays\_animal\_paradise@ yahoo.com. , or by phone, 814-289-7036. Until we meet or chat Take Care, we are gonna have a great year!

PROPOSED STANDARD CHANGES

Proposal A. Spread Ash Red and Yellow

Spread Ash Red-altered by spread which brings about a uniform ashy coloration to the plumage in our Helmets. While this can vary in shades from a very soft pastel blue to an almost lavender like appearance the most points should be awarded to birds with clear non-smutty lavender coloration and matching head and tail.

Spread Ash Yellow is the dilute description being creamy yellow, uniform color matching head and tail.

FOR \_\_\_\_\_ AGAINST \_\_\_\_\_

Proposal B. Making points available for Muff Helmets Master Breeder Points to be same as the SF-PH Points.

FOR \_\_\_\_\_ AGAINST \_\_\_\_\_

Proposed by:

Dennis Bray

Myron Berger

Dennis Manning

Return to Charles Dwight or e-mail: [mrsd@wcnnet.org](mailto:mrsd@wcnnet.org) (Be sure to put AHA in subject line)
